

RFP 2025-001

Official Community Plan and Zoning Bylaw

Addendum #2

Posted Feb. 12, 2025

Q: Are you interested in just having poster maps of the plan and zoning, or would you like an online system set up?

A: The District already has a mapping system in place, using ArcView GIS. Currently, we do all mapping updates in-house. We want the mapping for this project to be provided in that format or one compatible with ArcView GIS, for ease of integrating it into our current system. We are not looking for an online system to be set up.
